August 11, 2009

As general contractors to the gaming industry we have used CWC Architectural Millwork on several high profile gaming projects, the most recently completed project being Chances Gaming centre, Abbotsford, BC. Ted Bostrom, President and General Manager, takes a very hands on approach and guides his skilled team expeditiously through what is a very demanding work environment and schedule. Their attention to detail and understanding of a complex scope of work culminates in a high calibre finished product.

Sincerely,

A handwritten signature in black ink, appearing to read "Gene J. Ewankiw".

Gene J. Ewankiw
